

INCLUDE FUN
IN YOUR MEETING AGENDA

Nothing brings groups together like fun.

Give your group an opportunity to mingle in a casual, relaxed environment of good fun and camaraderie. When it comes to the perfect setting for these events, you can't top Saddlebrook's myriad outdoor locations. Here are a few of the group activity programs you can include as part of your meeting or conference – to make your event, your best ever.

Aqua Golf

Three floating greens with flags are placed in the pool. Participants attempt to chip waffle balls from a mat at the edge of the pool onto the floating greens. Velcro plays an important role in this game.

Human Bingo

This is definitely not the sit-down version. Completed light-hearted questionnaires are used to create a 'Human Bingo' card in which attendees must mingle with one another, introduce themselves, and match up information tidbits in the card with the persons they relate to. First person to fill in their card with all the correct names is the winner.

Hermit Crab Races

'Specially trained' hermit crabs create an evening of fun at the races. Guests are invited to sponsor and name a crab, which will race against other crabs in a frenzied game. Multiple races are held to accommodate all participants.

Sea Horseshoes

A variation from Aqua Golf, two floating mats are placed in the pool. Participants attempt to throw the foam horseshoes from the edge of the pool onto the floating mats.

Dive-In Movie

Join us for a 'wet' version of your favorite movie. Inner tubes, inflatable alligators, beach balls, and other floating toys fill the pool and give you the perfect seat at the pool for viewing.

Saddlebrook Putting Challenge

A miniature set of the actual layout of the each hole of Saddlebrook's front nine, including water areas and bunkers, is used to create this sophisticated miniature putting course. Your event consists of decorated playing area, recreation facilitators, all supplies and whole lot of fun.

Wacky Putting Challenge

Wacky Putting is a nine-hole miniature golf course set-up with many fun obstacles. Some of these obstacles include (but are not limited to) athletic equipment, hula hoops, plants, janitorial equipment, and more. Players must overcome obstacles in order to putt their way to the hole. An additional challenge is the tool the players must use to putt, which varies at each hole.

Nintendo Wii

Come join us for an exciting night of competition and fun. The Nintendo Wii gaming system is just the right addition to your reception or dinner function. Select from a wide variety of games from one-on-one to team sports.

In addition to the above, the Superpool has two volleyball nets. The Sports Village has volleyball courts, a basketball court, and two and a half acres where the group can play croquet or Bocce ball. And if children are part of your group, they may enjoy our 'Just for Kids' events.

Kid's Night Out

Looking for something to occupy the kids while the group enjoys the evening festivities? We've got just what you need. Children ages 4 - 12 are invited to join us for a themed night of movies, fun, and games coordinated specifically for your group. We will provide the age-appropriate movie and popcorn. Dinner and be also be arranged for this fun night out.

Build-A-Bear

Kids are welcome to create their very own stuffed animal with a wide selection of styles, sizes and clothing, all under supervision of Saddlebrook staff. This element can be added to the Kid's Night Out package.
